

ARACO BOND

SBR Bonding Agent for Mortar and Concrete

Product Description

ARACO BOND is a bonding agent with a modified synthetic emulsion SBR styrene-butadiene rubber. Designed specifically as a waterproofing and bonding agent for concrete and mortars.

ARACO BOND is ideal to improve the chemical and mechanical properties of cementitious mortars mix.

Applications

ARACO BOND is recommended is added into concrete or cement mortar such as: -

- Cement adhesives & mortars
- Key coat /spatter-dash
- Plastering /Cement and sand
- Abrasion resistant lining
- Patching mortars
- Bonding agent for cement based adhesives
- Bonding agent between old and new concrete

Product Advantages

- Improved adhesion
- Ready to use
- Improved elasticity and resistant to cracking
- Reduce shrinkage
- Excellent water resistant
- Non Toxic
- Chemical resistant

Technical Data

Density 1.02

Chloride content Nil

pH 9 ± 1

Safety Instructions

The product may cause skin irritation. Wear gloves and goggles and apply barrier cream to your hands. In contact with eyes or mucous membrane. flush immediately with plenty of warm water and seek medical attention without delay.

Package: 1, 5, 20 and 200 kg drums. 1000 lit flow bins

Dosage: Mix ARACO BOND with cement and natural sand 1:1 Mix ARACO BOND with water 1:1 to 1:3 in volume

Product Data

Composition	Modified Synthetic Rubber
Appearance	White liquid
Storage condition	Store in a dry area between 5C and 35C. Protect from direct sunlight
Shelf Life	12 months minimum from production date if stored properly in original unopened packaging.

Legal Notes

The information, recommendations, and application are based on ARACO current knowledge and experience of the products when properly stored, handled, and applied under normal conditions. ARACO products are guaranteed against defective materials and manufacture and sold subject to standard conditions. Users should always refer to the most recent technical data sheet for the product concerned, copies of which will be supplied on request.
